WORK BACKWARDS FROM THE TIME YOU WANT TO EAT

Christmas Day timeline

WE WANT TO EAT AT	NUMBER OF PEOPLE	OVEN SPACE / HOBS
____ : ____	______	______

How it works: for each dish, write how long it needs (prep + cooking + resting). Take that away from the time you want to eat: that is when it starts.

Example: eating at 2:00 pm, a dish that needs 3 h 30 min in total starts at 10:30 am.

Always follow the cooking times and temperatures on the packaging, your butcher's advice or your recipe.

Dish / job	Total time needed	Start at	Oven / hob / temp	Done

The night before

Don't forget

- [ ] Take meat out of the fridge in time
- [ ] Warm the plates
- [ ] Chill the drinks
- [ ] Crackers and candles on the table
